

Description

Material:

- plastic end bracket:** reinforced polyamide (PA-GF), oils and greases resistant;
- tube:** anodised aluminum UNI 4321;
- insert:** right through smooth bore, realized by molding the reinforced polyamide.

Characteristics:

- surface:** satin;
- colour end bracket:** black;
- colour tube:** silver or black marble
- temperature range from a minimum of -30°C to a maximum of 135°C.

Special request:

It is possible to supply colours for the plastic end brackets as shown in the table on request and for quantities.
