

Description

Material:

- handle: reinforced polyamide (PA-GF); oils and greases resistant;
- bore: female smooth hole, obtained by moulding the plastic.

Characteristics:

- surface: satin;
- colour: black;
- fixing: push fit;
- temperature range from a minimum of -30°C to a maximum of 135°C.

Special request:

It is possible to supply the cylindrical handle with smooth right through hole in colours as shown in the table on request and for quantities.
