

Description

In our range we offer a wide variety of push-in fittings, suitable for your pneumatic applications. Push-in fittings are easy to disconnect via the plastic pressure ring.

The plastic push-in fittings from Sang-A are functionally interchangeable with fittings from other brands.

Material:

housing: Polyurethane and Nylon.

Characteristics:

- medium: compressed air (no other gasses or liquids);
- workload: 0~284PSI; 0~20Kg/cm² (0~1960kPa);
- negative pressure: -29.5 in Hg; -750mmHg (10 Torr);
- temperature range: 0 ~ 80°C.
