

# BIBUS®

BIBUS BV, a new name with a new look. However, our people remain exactly the same. When you make an appeal to them, they bring the experience, knowledge and commitment so you're always up to date concerning all possibilities and innovations. In this way you can realize your ideas and remain a market leader. Your success is ultimately our success.

By joining our years of knowledge and experience in one organisation we focus on Mechanical Components, Mechatronics, Pneumatics & Process Technology, Clamping Components, Machines and Environmental Technology.

## OPERATE

Lifting pins, index plungers, knobs, clamping levers, U-handles, handles, grips, crank handles, handwheels, levers, swing handles, locking systems, locks, latches and keys.

## MACHINE ELEMENTS

Spring plungers, trust screws, levelling feet, ball casters, elements, toggle latches, internal hinges, external hinges and magnets.

## FASTEN

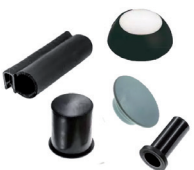

Spacers, PCB-supports, PCB-rails, push rivets, blind rivets, blind rivet nuts, screw and bolts, nuts and rings.

## CABLE MANAGEMENT

Cable ties, grommets, heat shrink tubing and cable clamps provide the ideal solution in a wide variety of situations for industrial purposes.

## PROTECT

Caps, shoulder washers and gaskets are indispensable for protecting all your fasteners and devices.

## ROBOT ACCESSORIES

Tool systems, tool changers, swivels, swivel tool changers, CiRO, hose packages, components and accessories.

## DAMPING TECHNOLOGY

Gas springs, gas springs Quick ship, vibration buffers, shock absorbers, motion control and safety products.

## MOTION

Ball cages, guide bushings, guide shafts, linear actuators, hydraulic height adjustments, rotary motions and linear motions.

## PNEUMATICS

Cylinders, valves, safety valves, grippers, air treatment and pneumatic accessories.

## PROCESS TECHNOLOGY

Solenoid valves and process valves a wide variety for industrial purposes.

## VACUUM TECHNOLOGY

Standard suction cups, special purpose suction cups and accessories, vacuum pumps, vacuum pump accessories, vacuum switches, vacuum accessories and vacuum grippers

## MEASURING AND CONTROL TECHNOLOGY

Pressure sensors, flow sensors, flow controllers, pressure monitoring and level- and temperature management with very high accuracy.

## CLAMPING

Clamping elements, clamps, clamping nuts, clamping washers, clamp support, slot systems, hole systems, zero point clamping systems, clamping bars, multi-vice clamps and plates.

## MACHINES

Clinch machines, industrial presses and blind rivet tools for wide variety of situations for industrial purposes.

## PUMPS

Air pumps, membrane diffusers and side channel blowers. Always the right pump for your environmental application.
