

BIBUS is a successful Dutch B2B technical trading company that supplies high-quality industrial components from top foreign manufacturers to various industries, including machine and equipment builders. BIBUS BV is a subsidiary from the Swiss BIBUS Holding AG. From the initial idea to aftercare, BIBUS products and services are utilized at all stages. The solutions offered are of excellent quality, with exceptionally extensive options.

Through years of close collaboration with clients and renowned suppliers, BIBUS has secured a permanent place in the market. The team consists of well-trained and motivated individuals with extensive practical experience and knowledge. This makes BIBUS a dynamic, proactive partner where optimal cooperation is central.

OPERATE

Lifting pins, index plungers, knobs, clamping levers, u-handles, grips, hand wheels, levers, swing handles, locking systems, locks, keys and latches.

DAMPING TECHNOLOGY

Gas springs, quickship gas springs, vibration buffers, shock absorbers, friction springs, industrial buffers, motion control and safety products.

VACUUM TECHNOLOGY

Standard suction cups, special purpose suction cups, suction cup accessories, vacuum switches, vacuum accessories and vacuum grippers.

MACHINE ELEMENTS

Spring plungers, levelling feet, ball casters, elements, toggle latches, internal and external hinges, wheels, magnets and thrust screws.

SENSOR & SWITCHING TECHNOLOGY

Operator controls, machine safety, capacitive sensor switches, sensors, level and temperature sensors and LED signaling for a variety of applications.

MEASURING AND CONTROL TECHNOLOGY

Pressure sensors, flow sensors, flow controllers, pressure monitoring and level- and temperature management.

FASTEN

Spacers, PCB-supports, PCB-rails, push rivets, screws and bolts, nuts and rings.

ROBOT ACCESSORIES

Tool systems, tool changers, swivels, swivel tool changers, CiRO, hose packages and accessoires.

CLAMPING

Clamping elements, clamps, clamping nuts, clamping washers, clamp supports, slot systems, hole systems, zero point clamping systems, clamping bars, multi-vice clamps and plates.

CABLE MANAGEMENT & PROTECT

Cable ties, grommets, cable clamps, heat shrink tubing, insulation sleeves, seals, caps and gaskets for the protection of all your mounting materials and equipment.

PNEUMATICS

Cylinders, quick ship ISO cylinders, valves, safety valves, grippers, air treatment, pneumatic accessories and high speed valves.

MACHINES

Industrial presses in various designs, are widely applicable for industrial purposes.

MOTION

Ball cages, guide bushings, guide shafts, axle-hub connections, linear inline actuators, hydraulic height adjustments, shaft couplings, rotary drives and linear drives.

PROCESS TECHNOLOGY

Solenoid valves and process valves, a very wide range offering a wide choice.

ENVIRONMENTAL TECHNOLOGY

Air pumps, diaphragm pumps, membrane diffusers and side channel compressors. Always the right pump for your environmental technology application.
