We would like to clarify that BIBUS BV is neither a manufacturer nor an importer of substances. As part of our commitment to compliance, we have removed all non-RoHS-compliant products from our range.

However, custom-made products that deviate from RoHS requirements are not covered under this declaration.

While we strive for full compliance, we cannot guarantee that future production by our suppliers will exclusively use RoHS-compliant materials. Nevertheless, we will reject any delivery that we know to be produced using non-compliant materials.

Upon request, we can provide samples for testing to verify compliance with RoHS requirements.

We trust this declaration meets your needs. Should you have any further questions, please feel free to contact us.

Yours truly,

BIBUS BV
